

Explicatii: Clasificarea IP a gradelor de protectie

Clasificarea internationala a gradelor de protectie IP, se compune dintr-o combinatie de 2 cifre (intre 0 si 9) care indica:

- prima cifra – protectia la contact direct
- a doua cifra – protectia la apa

IP Protection classes			
IP	Characteristic 1: protection against contact	IP	Characteristic 2: waterproofing
0	No special protection <i>-Fara protectie la contact</i>	0	-No waterproofing <i>-Fara protectie la apa</i>
1	-Protection from solid objects greater than 50mm in diameter <i>-Protectie fata de obiecte solide cu diametrul mai mare de 50mm</i>	1	-Protection from dripping water <i>-Protectie fata de picaturile de apa care cad vertical.</i>
2	-Protection from object not greater than 12mm in diameter <i>-Protectie fata de obiecte mai mici de 12mm in diametru</i>	2	-Protection from vertically dripping water (tilted up to 15°) <i>-Protectie fata de picaturile de apa verticale (pina la un unghi de 15o fata de verticala)</i>
3	-Protection from object not greater than 2,5mm in diameter <i>-Protectie fata de obiecte mai mici de 2,5mm in diametru</i>	3	-Protection from sprayed water (tilted up to 60°) <i>-Protectie fata de picaturile de apa pulverizate (pina la un unghi de 60° fata de verticala)</i>
4	-Protection from object not greater than 1mm in diameter <i>-Protectie fata de obiecte mai mici de 1mm in diametru</i>	4	-Protection from splashed water <i>-Protectie fata de apa improscata</i>
5	-Complete protection against contact/against dust deposit <i>-Protectie completa la contact/fata de depunerile de praf</i>	5	-Protection from water projected from a nozzle <i>-Protectie fata de apa proiectata cu furtunul</i>
6	-Complete protection against contact /from infiltration of dust <i>-Protectie complete impotriva contactului/impotriva infiltratiilor de praf</i>	6	-Protection against powerful jets of water. <i>-Protectie impotriva jeturilor puternice de apa</i>
7		7	-Protection against immersion <i>-Protectie impotriva apei in caz de cadere accidental in apa</i>
8		8	-Protection against complete, continuous submersion in water. <i>-Protectie impotriva apei in cazul</i>
